Subject: Internship Status

Importance: High

Hi Adam,

Just checking in about the status of the internship. Have you been in contact with Julie lately? I am wondering if it is necessary to go through all these motions if she is just looking for a simple reponse. I would really like to get in the lab ASAP. I hate to bother you constantly but this has been "up in the air" since the beginning of August, nearly 4 months later I still don't have an answer. I have been trying to be as patient as I can be, but at the start of the Spring semester I will need to start making serious steps towards my project, and I need to know for sure whether or not I will be able to get into the drug lab. If there is anything I can do on my part to move this along please let me know. I would be happy to help.

Thank you!

Keri
